SAFETY DATA SHEET
Sorexa Gel

PRODUCT AND COMPANY IDENTIFICATION

**Trade Name**  
Sorexa Gel

**Product Code**  
DIFE84410

**Intended Use**  
FOR USE ONLY AS A RODENTICIDE
Approved under The Control of Pesticides Regulations 1986 for the control of mice.
Approval Number: MAFF 08315

**Appearance**  
A semi-solid green paste.

**Manufacturer/Supplier**  
Sorex Limited

**Address**  
St. Michael's Industrial Estate
Widnes, Cheshire, WA8 8TJ

**Phone Number**  
+44 (0) 151-420 7151

**Fax Number**  
+44 (0) 151-495 1163

COMPOSITION/INFORMATION ON THE COMPONENTS

**Hazardous Components in Product for EC**

- R26/27/28 Very toxic by inhalation, in contact with skin and if swallowed.
- R48/25 Toxic: danger of serious damage to health by prolonged exposure if swallowed.
- T - Toxic
- T+ - Very toxic

PRODUCT HAZARD IDENTIFICATION

**Main Hazards**

Not classified as hazardous.
Large quantities would need to be ingested to produce a toxic effect. Avoid all contact by mouth.
Practically non-hazardous by skin contact.

This product contains difenacoum, an indirect anticoagulant. Any signs of poisoning are unlikely to occur until 12-18 hours after ingestion. Thereafter, they will develop progressively and may rapidly appear. Clinical signs result from an increased bleeding tendency and include: an increase in prothrombin time, bruising easily with occasional gum bleeding, blood in the stool or urine, excessive bleeding from minor cuts and abrasions, pale mouth and cold gums, anorexia and general weakness. More severe cases of poisoning include haemorrhage (usually internal) and shock.
This product is hazardous to mammals including domesticated animals, and birds if ingested. Exposure of non-target animals should be prevented.

FIRST AID MEASURES

**First Aid - Eyes**  
Wash out eye with plenty of water. Obtain medical advice if necessary.

**First Aid - Skin**  
Wash skin with soap and water.

**First Aid - Ingestion**  
Wash out mouth with water. Do not induce vomiting. Obtain medical attention.

**First Aid - Inhalation**  
Remove from exposure. Obtain medical advice if symptoms develop.
FIRST AID MEASURES (continued)

Advice to Physicians
Difenacoum is an indirect anticoagulant. Vitamin K1 (phytomenadione) is antidotal. In the case of suspected poisoning, determine prothrombin time not less than 18 hours after consumption. If elevated, administer vitamin K1, 40 mg/day in divided doses, and continue until prothrombin times normalise. Continue determination of prothrombin time for three days after withdrawal of the antidote and resume treatment if elevation occurs in that time. For comprehensive medical advice on the treatment of poisoning, contact the nearest Poisons Information Centre or Sorex Limited.

FIRE FIGHTING MEASURES

General Hazard
This product is non-flammable, but is combustible.

Extinguishing Media
Use water spray, foam, dry chemical or carbon dioxide. Keep containers and surroundings cool with water spray.

Protective Equipment
Wear self contained breathing apparatus.

ACCIDENTAL RELEASE MEASURES

Spillages
Any spillages should be cleared up immediately and disposed of safely. Wash contaminated surfaces with detergent solution.

HANDLING AND STORAGE

Handling
This product is subject to the Food and Environment Protection Act, 1985, and The Control of Pesticides Regulations, 1986, made under it. The product must be used and stored only in accordance with the product label. Refer also to the section 'Exposure Controls/Personal Protection'.

Avoid contact with eyes, skin and clothing.

Storage
Store in original container under cool and dry conditions in a secure, well ventilated place, inaccessible to children, and away from foodstuffs and animal feedstuffs and products which may have an odour.

EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Standards
Difenacoum Technical Material
None assigned.

Exposure controls should be implemented with due regard to the hierarchy of controls (elimination, substitution, local exhaust ventilation, operating procedures and Personal Protective Equipment (PPE)) as required by The Control of Substances Hazardous to Health (COSHH) Regulations. PPE should only be used as a last resort where exposure cannot be controlled by other means.

Hand Protection
PVC or rubber gloves.
PHYSICAL AND CHEMICAL PROPERTIES

Physical State  A semi-solid paste.
Colour          Green.
Odour           No significant odour.
Flammability    Not flammable.
Solubility in Water  Insoluble.
Density         ca. 1.1.
Explosive Properties  None.
Oxidising Properties  None.

STABILITY AND REACTIVITY

Stability       Stable under normal conditions.
Hazardous Decomposition Products  Hazardous decomposition products are not expected to be formed during normal storage.

TOXICOLOGICAL INFORMATION

Acute Toxicity  Oral LD50 (rat) 36000mg/kg.
Irritancy - Eyes  Not an eye irritant.
Irritancy - Skin  Not a skin irritant.
Skin Sensitisation  No known reports of skin sensitisation.

ECOLOGICAL INFORMATION

Ecotoxicity  This product is hazardous to mammals including domesticated animals, and birds if ingested. Exposure of non-target animals should be prevented.

DISPOSAL

Product Disposal  The best means of disposal of any product is through proper use according to the label. Incineration, burying or consigning to landfill are the recommended methods of disposal.
Container Disposal  Do not dispose of the pack in domestic refuse. Empty completely, puncture or crush, and dispose of safely.

TRANSPORT INFORMATION

Non-hazardous for transport.
REGULATORY INFORMATION

**Intended Use**
FOR USE ONLY AS A RODENTICIDE
Approved under The Control of Pesticides Regulations 1986 for the control of mice.
Approval Number: MAFF 08315

**Precautions Phrases**
For the Statutory Conditions Relating to Use please refer to the product label.
FOR USE ONLY AS A RODENTICIDE
AVOID ALL CONTACT BY MOUTH.
WEAR SUITABLE PROTECTIVE GLOVES when handling and applying the product.
WASH HANDS AND EXPOSED SKIN before meals and after use.
PREVENT ACCESS TO THE BAITS by children, birds and other animals, particularly dogs, cats and pigs.
DO NOT USE BAIT where food, feed or water could become contaminated.
REMOVE ALL REMAINS OF BAIT and bait containers after treatment and burn or bury.
SEARCH FOR AND BURN OR BURY ALL RODENT BODIES. DO NOT PLACE in refuse bins or on rubbish tips.
KEEP IN ORIGINAL CONTAINER, tightly closed, in a safe place.
EMPTY CONTAINER COMPLETELY and dispose of safely.
IN CASE OF ACCIDENTAL CONSUMPTION, contact a doctor and show this label.

OTHER INFORMATION
For use only as specified on the label.
The information in this data sheet should be considered when undertaking a risk assessment under the COSHH regulations. A data sheet does not constitute a COSHH assessment.
This product contains Bitrex and warning dyes.
Bitrex is a human taste deterrent. It is included at a concentration that is repulsive to human taste but is not detected by rats or mice.
(Bitrex is a Trade Mark of MacFarlan Smith, Edinburgh)

This data sheet was prepared in accordance with the European Directive 93/112/EC.
